

## Interconnecting Cisco Networking Devices Part 2 (ICND2) v1.0

### Associated Certifications

CCNA

### Duration

5 days

### Prerequisites

ICND1

### Course Content

This course focuses on providing the skills and knowledge necessary to install, operate, and troubleshoot a small to medium-size branch office Enterprise network, including configuring several switches and routers, connecting to a WAN and implementing network security.

### Course Objective

Upon completion of this course, you should be able to:

- Review how to configure and troubleshoot a small network.
- Expand the switched network from a small LAN to a medium-sized LAN with multiple switches, supporting VLANs, trunking, and spanning tree.
- Describe routing concepts as they apply to a medium-sized network and discuss considerations when implementing routing on the network.
- Configure, verify, and troubleshoot OSPF.
- Configure, verify, and troubleshoot EIGRP.
- Determine how to apply ACLs based on network requirements, and to configure, verify, and troubleshoot ACLs on a medium-sized network.
- Describe when to use NAT or PAT on a medium-sized network, and configure NAT or PAT on routers.
- Identify and implement the appropriate WAN technology based on network requirements.

### Course Outline

Module 1 - Small Network Implementation

Module 2 - Medium-Sized Switched Network Construction

Module 3 - Medium-Sized Routed Network Construction

Module 4 - Single Area OSPF Implementation

Module 5 - EIGRP Implementation

Module 6 - Access Control Lists

Module 7 - Address Space Management

Module 8 - LAN Extensionin to a WAN

## Who Should Attend

- Channel Partner / Reseller
- Customer
- Employee
